of Biological Material	9. 🗌 Other	

Application/Control Number: 09/944,038

Art Unit: 1742

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4 and 6-9, drawn to a process, classified in class 75, subclass 363.
- II. Claims 10-12, drawn to powder materials, classified in various subclasses in classes 420 and 423.
- 2. The inventions are distinct, each from the other because:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by a materially different process such as by an atomizing process.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their different classification and recognized divergent subject matter, restriction for examination purposes as indicated is proper.

3. During a telephone conversation with Diderico van Eyl, attorney of record on February 19, 2004 a provisional election was made without traverse to prosecute the invention of Group I, claims 1-4 and 6-9. Affirmation of this election must be made by applicant in replying to this Office action. Claims 10-12 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Application/Control Number: 09/944,038

Art Unit: 1742

Page 3

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Diderico van Eyl on February 19, 2004.

5. In the claims:

Claim 2, line 2, insert --oxide-- after "tungsten".

Cancel non-elected claims 10, 11 and 12.

6. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest reducing oxides of tungsten or molybdenum by use of a mixed salt of at least two alkali metal compounds selected in such a manner that an intermediate material as defined in claim 1, and having a melting point of less than 550 degrees C, is formed. Gero (U.S. Patent 1,602,527) discloses that it is known in the art to reduce tungstic oxide using compounds containing two or more alkali metals, but provides no suggestion or motivation to select compounds having the features as presently claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1742

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Wyszomierski whose telephone number is (571) 272-1252. The examiner can normally be reached on Monday thru Friday from 8:00 a.m. to 4:30 p.m. Eastern time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King, can be reached on (571) 272-1244. Effective October 1, 2003, all patent application related correspondence transmitted by facsimile must be directed to the central facsimile number, (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
